

DODGE Turbo Diesel Truck '94-'09

The Geno's Garage CB mount uses the existing center seat bolts to hold it in place and is easy to install.

Working from under the seat, loosen the two bolts holding the front of the seat to the seat bracket. The CB mount then slides in between the seat and seat bracket.

Tighten the bolts, line up the mounting hardware that you are using with your CB, drill the bracket and install your CB radio to the mount.

You should end up with something that looks like this:
